## "Lip Lift Surgery & Peri Oral Procedures. Recovering aged looking lips".

Throughout the years, esthetic dentistry has used the upper lip as a major decision making feature when designing smiles. We have been told to simply accept the position of the upper lip and base many of our esthetics from this often aged or over augmented length. The problems arise when we try to restore our patients with young looking teeth but they remain with senile aging lips. Dr. Stanley and Dr. Talei will introduce a paradigm shift in esthetic treatment planning where we can incorporate minimally invasive plastic surgery procedures to give our patients a youthful lower face, better incisal display, and treatment plan with an Orofacial approach.

### Learning Objectives:

1. Learn the Modified Lip Lift technique to restore aging and over augmented lips to an ideal youthful position
2. Learn how to treatment plan with an Orofacial approach
3. Incorporate adjunctive lower face procedures such as corner lifts, VY plasty, etc to make your patients look and feel great and highlight your esthetic dental treatment

### Before & After Lip Lift Surgery

## **Dr. Ben Talei**

A native of California, Dr. Benjamin (Ben) Talei graduated from the University of California, Los Angeles (UCLA) with a degree in physiological sciences, receiving both college and departmental honors. While studying at the University of Menedez Pelayo in Spain, Dr. Talei worked for the Sisterhood of Blood Donors and the Red Cross promoting blood donations in Andalucia, Spain.

He then received his medical degree at one of the nation's top medical schools –University of California, San Diego School of Medicine (UCSD). Dr. Talei was nominated to the Gold Humanism Honor Society after having donated immense amounts of time and energy to the free clinic in San Diego, along with other charitable foundations.

Dr. Talei then completed his residency training in head & neck surgery at Columbia University Medical Center, Cornell University Medical Center and New York Presbyterian Hospital. There, he worked with some of the most prominent facial plastic surgeons, including his primary mentor Dr. Steven Pearlman. Dr. Talei then served as chief in his residency at Columbia University and Cornell University. He also served as a fellow at Memorial Sloan Kettering Cancer Center in New York City.

Following his residency training, Dr. Talei became one of the only surgeons in the country to complete two separate fellowships in facial plastic and reconstructive surgery. First, he completed one of the most revered and prestigious fellowships in the country at the New York Center for Facial Plastic & Laser Surgery. Simultaneously, he offered his skills and training while serving as voluntary staff and teacher for the resident head and neck surgeons at the Albert Einstein School of Medicine. Dr. Talei then furthered his training with Dr. Milton Waner at the Vascular Birthmark Institute of New York, a part of Lenox Hill and Manhattan Ear, Eyes and Throat Hospitals. There he treated the rarest and devastating vascular birthmarks and congenital anomalies while refining his techniques in pediatric facial plastic surgery.

Integrated fully into the Beverly Hills community, Dr. Talei is a member of the Beverly Hills Health & Wellness Committee. He is also on staff at UCLA Ronald Regan Medical Center, Santa Monica UCLA Medical Center, Cedars-Sinai Medical Center and Children's Hospital of Los Angeles. Outside of the hospital, Dr. Talei is the Advisory Chair for the Los Angeles County Medical Association (LACMA).

Dr. Talei is also an avid author and speaker. He has been invited to speak at national meetings and has contributed significantly to medical literature with his research and publications in medical journals and textbooks. His publications on advanced face and neck lifting techniques and revision rhinoplasty are used to teach doctors nationwide. As a sub-specialist in deep plane facial rejuvenation, facelifting and minimally invasive rhinoplasty, Dr. Talei frequently accommodates visiting surgeons in order to teach them more advanced surgical techniques. The modified upper lip lift is also a procedure pioneered and perfected by Dr. Talei, as he performs more than any surgeon in the world. He is most well-known for his rapid healing times, very natural, long-lasting results and impeccable facial aesthetic. Dr. Talei has a dedicated expertise to the face, and he has been featured on E! News, Fox, NBC and Inside Edition, amongst a host of other editorials.

## **Dr. Kyle Stanley**

Dr. Kyle Stanley, named as "The Next Generation of Cosmetic Dentistry" by the American Academy of Cosmetic Dentistry in 2015 and "Top 10 Young Educators in Dentistry" by the Seattle Study Club, graduated Magna Cum Laude from the Herman Ostrow School of Dentistry of USC and then went on to complete a dental implant residency along with a dental implant specialty in Florianopolis, Brazil. While at USC, Dr. Stanley completed an Esthetic mini-residency with the world leader in minimally invasive dentistry, Dr. Pascal Magne, and was honored with the Charles L. Pincus Award for outstanding achievements in esthetic dentistry by the American Academy of Esthetic Dentistry.

In addition to Dr. Stanley's clinical artistry, he is also a dedicated researcher who has published in some of the top international dental journals about topics relating to esthetics, dental implants, and surgery. Dr. Stanley is a Key Opinion Leader for Nobel Biocare, a top implant company and has presented on multiple continents and is a highly in-demand speaker.

A Key Opinion Leader for DSD (Digital Smile Design), Dr. Stanley works closely with Dr. Christian Coachman on lip manipulation and the future of dentistry, The Orofacial Club.

As a clinical and pre-clinical faculty member at the Ostrow School of Dentistry of USC, he is part of an elite team who focusses on minimally invasive (biomimetic) treatment. Alongside Dr. Sascha Jovanovic, a world leader in dental implants and bone augmentation, Dr. Stanley is the co-director of the glIDE (Global Institute of Dental Education) Los Angeles Study Club and works hand in hand with Dr. Jovanovic on complex cases needed truly esthetic outcomes.

Dr. Stanley maintains an exclusive private practice in Beverly Hills, CA where alongside Dr. Matthew Nejad and Dr. Mark Helm, they treat quality focussed patients with Biomimetic, Implant, and Cosmetic Dentistry. Dr. Stanley focuses his practice on minimally invasive esthetic, surgical, and dental implant treatment.

# guest speakers

## **Dr. Christian Coachman**

Graduated in Dental Technology in 1995 and in Dentistry at the University of São Paulo/Brazil in 2001. He is an honorary member of the Brazilian Academy of Esthetic Dentistry and the second Brazilian to become a member of the American Academy of Esthetic Dentistry. Dr. Coachman worked with many leading dentists around the world. Works as a consultant for Dental offices and companies, developing products and implementing concepts and has lectured and published internationally. He developed well known techniques as the Pink Hybrid Implant Restoration and is the founder of Digital Smile Design Concept (DSD). His family has a unique tradition in dentistry and is featured in the Guinness Book of Records as the longest, non stop, lineage of dentists, 6 generations so far, since 1848.

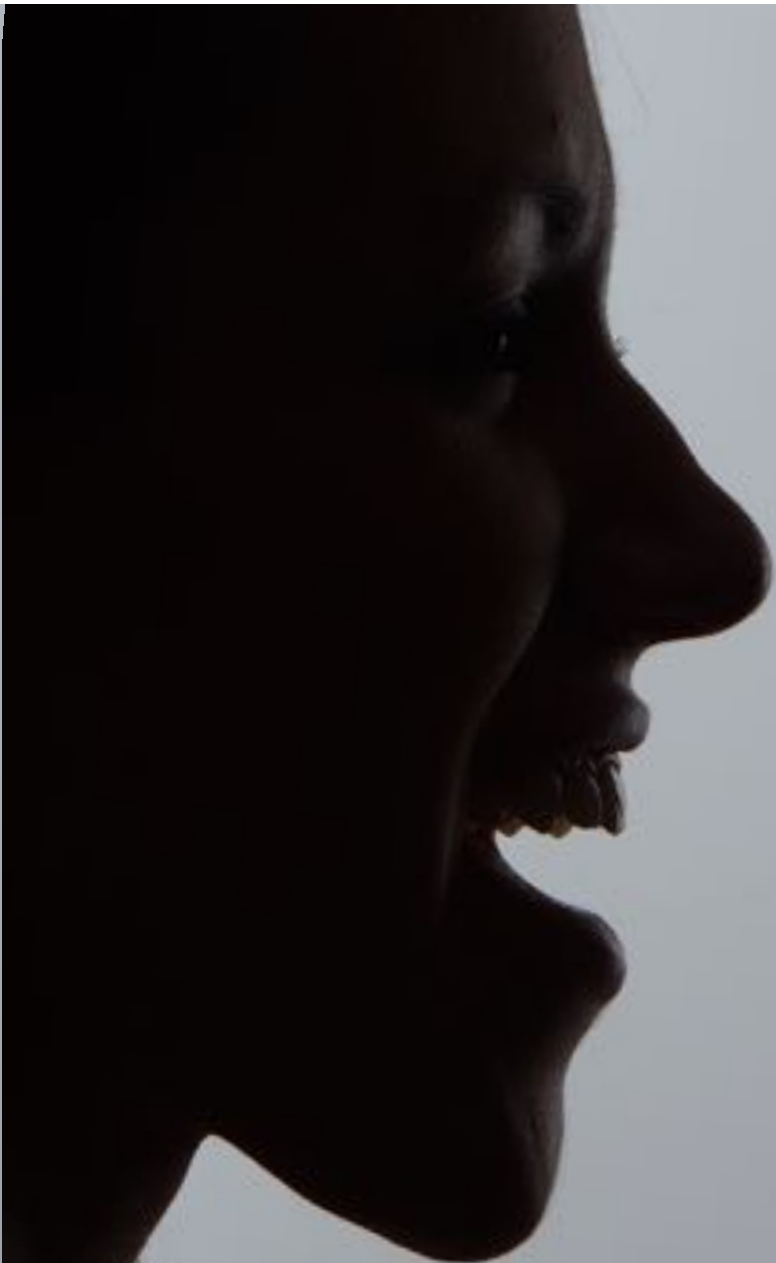

## **Dr. Octavio Cintra**

Received his D.D.S. from the University of Campinas – UNICAMP – Sao Paulo/Brazil. His Oral and Maxillofacial training was obtained at The University and Hospital of Santa Casa de Misericordia de Sao Paulo, his fellowship was at The Southwestern Medical Center at Dallas – Division of Oral and Maxillofacial Surgery, Parkland Memorial Hospital, Dallas, Texas, USA. He is one of the five members of S.O.R.G. – Latin America Group and is the Vice President of S.A.A.F. (South American Arnett Foundation). He maintains a private practice strictly focused in Orthognathic Surgery in Sao Paulo/SP, Brazil.

## **Dr. Altamiro Flavio**

Graduated at School of Dentistry at the Federal University of Goiás. Prosthodontics Especialist by Federal University of Uberlândia. Professor of the Specialization in Restorative Dentistry at Brazilian Dental Association – Goiás Division. Certified member of the Brazilian Society of Aesthetic Dentistry (BSAD/SBOE). Founding Member of the Brazilian Society of Botulinum Toxin and Facial Implants (SBTI). Professor of Facial Anatomy at the Miami Anatomical Research Center (M.A.R.C. – USA).
